

A

Networks

- Physical Interactions
- Co-expression
- Predicted
- Co-localization
- Genetic Interactions
- Pathway
- Shared protein domains

Functions

- ERBB signaling pathway
- peptidyl-tyrosine phosphorylation
- negative regulation of ERBB signaling pathway
- epidermal growth factor receptor signaling pathway
- regulation of ERBB signaling pathway
- regulation of protein kinase B signaling
- regulation of epidermal growth factor receptor signaling pathway

B

High Confidence (score ≥ 0.900)

Medium Confidence
